Operations Team Please email TheApptBook@luxotticaretail.com with questions. 877-720-9119 (tel) 513-492-6990 About The Appointment Book (TAB) About The Appointment Book (TAB) The Appointment Book (TAB) is a patient scheduling service from Eppointments® that can be accessed from www.eppointments.com rights "Consumers, by definition, include us all," President John F. Kennedy offered his definition to the United States Congress on March 15, 1962. This speech became the basis for the creation of World Discover an online appointment scheduling software flexible for any volume of your business scheduling & security needs. Scheduling ahead of its time. 167 'optometrist OR boise OR id OR lenscrafters OR STATECODE: Retail Operations Specialist at Luxottica 0 . In the age of modern technology, Optometry practices should be choosing eyecare software than can serve as not only EHR's but practice management solutions. A new appointment must have a "Category" for the appointment to transfer. Refer to Configuration. A new appointment will transfer only if the Appointment Type within TAB is mapped to an Encounter template. A warning will display if a duplicate patient name is entered. Refresh RevolutionEHR by clicking the "TODAY" button on the Calendar side window. Schedule blocking in RevolutionEHR does not transfer to TAB. Events in TAB do not transfer to RevolutionEHR. Multiple users should take caution to avoid accessing the same patient record at the same time for the purpose of updates. The most recently updated patient record will be saved. If you wish to take advantage of the recall support offered through TAB, you must check patients out in TAB and pre-appoint them in TAB for their next regular eye exam. Pre-appointed patient exams will transfer into RevolutionEHR when they are confirmed and moved into the Schedule Appointments page of TAB. Remember to take these new scheduleld patients off the Annual RevolutionEHR Recall List, TAB Pre-Appointing, and RevolutionEHR Recall lists are not linked. AuditHistory within Eppointments will alert users of any transfers between the two systems that fail. The alert will provide information for users to update system settings or otherwise diagnose and correct. The identifier for the AuditHistory record is "EHR-SYNC-ERR." This identifier will also provide a detailed description of the error (e.g. ws.err.epp.appt.type.notfound-Appointment type was not found.) Contact an Appointment Book Specialist at theapptbook@eppointments.com or 877.720.9119 if you experience an issue with the transfer of information. Please verify your configuration is correct and details regarding the steps taken that produce the issue. Also, a screen shot of your system will be very helpful in identifying the problem. Insurance fields are not fully shared between the systems. The capability to transfer insurance information, including verification flags from Eppointments to RevolutionEHR, is in development. If the number of minutes assigned to the encounter template in RevolutionEHR differs from the number of minutes assigned to the appointment type in TAB, adjust the number of minutes assigned to the encounter template in RevolutionEHR to ensure that the appointment times booked and available in TAB and RevolutionEHR match. You can either match the timing of the encounters and appointment types exactly or adjust the encounter types to round up to the times of corresponding appointment types. Website: Notes: Patient online site for independent doctors of optometry provided to: "SearsOptical.com, TargetOptical.com, and Lenscrafters.com, PearleVision.com" TAB is the backend database to the PearleVision.com patient online scheduler via the TAB web-services. If you are using both TAB and My Vision Express to schedule appointments, there are a few steps you can take so My Vision Express can interact with TAB. First, you will have to setup your services for which you are able to choose for appointments in both TAB and My Vision Express. To do this, in My Vision Express go to File>Inventory>Services. Then click on add. When adding or modifying a service, to make it a TAB appointment type just choose a service from the The Appointment Book appointment type mapping drop down list. Next, make sure you have setup all of your TAB providers in My Vision Express with there corresponding NPI numbers in File>Setup>Physician/Resource. Please make sure NPI numbers are the same in both TAB and My Vision Express. Also, if you already have patients in TAB or My Vision Express please update their data so that TAB and My Vision Express records match. Any discrepencies in data between TAB and My Vision Express can result in the loss of data or the duplication of patients. Finally, you will have to set up each store with its TAB store number, userid and password. To do this, in My Vision Express go to File>Setup>Company Information and under the Calendar tab you can fill in the textboxes in the The Appointment Book (TAB) group box. Note: Store numbers should be entered with 11 digits including brand identifiers and leading zeroes as needed (i.e. 00000000879 (LC); PV000006364 (Pearle Corp); PF00008088 (Pearle Franchise); SR000001442 (Sears Optical); or TG000004114 (Target Optical). If there are any errors in the Tab to My Vision Express or vice-versa process you can view them in My Vision Express by going to Tools>Interface Exceptions and viewing the exceptions under the interface name The Appointment Book. If there are any data discrepancy between TAB and My Vision Express please fix them and then check acknowledged in the Interface Exceptions window. Until you do this, the appointment or patient with the error will not be transferred between TAB and My Vision Express. EXAMPLE Here is an example of creating an appointment on My Vision Express and that same appointment showing up on TAB. First we create the appointment on My Vision Express. Then wait at least thirty seconds and check TAB for the new appointment. You might have to click the Refresh button in TAB. Now, if you choose too, you can check-in the appointment in TAB. Then wait at least thirty seconds and check the change on My Vision Express. Now, if you choose too, you can check-out the appointment in My Vision Express. Then wait at least thirty seconds and check TAB for changes on the appointment. You can make other changes to the appointments like confirming, rescheduling, canceling, and leaving a message, and with any change or creation of an appointment just wait two minutes and check the receiving interface for changes on any appointments. If an appointment change or creation does not show up on the receiving interface, check the Interface Exceptions window in My Vision Express for errors. AVAILABLE TRANSACTIONS Add Appointment Cancel Appointment (status went to cancelled or "re-scheduled") Check-in Appointment (status went to check-in) Cancel Check-in Appointment (status went from check-in to regular) Check-out Appointment (status went to check-out) Cancel Check-out Appointment (status went from check-out to regular) Confirm Appointment (status went to confirmed) Message Left For Appointment (status went to "left message") Reschedule Appointment (the datetime of the appointment changed or provider changed) Update Appointment (one/many of the following changed: appointment type (service of the appointment), duration of the appointment, notes on the appointment, insurance status, physician assigned to appointment Confirm Pre-Appointment(convert a pre-appointment to a confirmed appointment) Add Patient Update Patient Activate Patient (change patient status)Note: All patient transactions from My Vision Express only occur during an appointment transaction. However, patient updates made in TAB are sent even without an appointment transaction.
